

Your Voice Matters: Shaping the Future of Healthcare Data

Start Here

● —————
Open the QR code
and participate in
this survey.

Data can improve healthcare,
but people's voices matter.

Synthetic data protects privacy
while enabling innovation.

This is about people,
not just technology.

Help us guide a people-centric use of
synthetic data.

Your input will help shape how data is
used safely and responsibly to improve
medicine!

This is a survey directed to all citizens over 18 years old.
